

Design Information

Available Configurations:

Custom shapes available to your specifications :

Application

Series 1400-D Fixed Windows are generally used as cabin non-venting systems and are appropriate for most motor yachts, sport cruisers, and houseboats.

Fabrication

The master frame of aluminum extrusion is fully welded for structural strength. Frame assembly allows for glazing of standard 1/4" tempered glass, with opt. 3/8" glass available. Master frame flanges allow for ease of installation.

Hardware

Marine quality weather gaskets and trims are standard.

Finish

Marine grade urethanes and polyester powder coatings in various standard and custom colors are available.
